JOSÉ ADJOVI

Engineer / Full-stack web & mobile developer

Abomey-Calavi, Benin · Remote · +229 01 53 22 53 24 · joseadjovi67@gmail.com

PROFILE

Full-stack web and mobile developer. I design Flutter apps, Next.js interfaces and APIs with Laravel or Node.js, through production deployment. I work remotely with companies in Benin, Côte d'Ivoire, Belgium, Canada and France.

LANGUAGES Dart · JavaScript · PHP · C · MATLAB	**BACK-END** Node.js · Laravel · Firebase · MySQL
MOBILE Flutter · Android	**SOFTWARE** MATLAB/Simulink · Android Studio · VS Code · Arduino
WEB Next.js · React · Vue.js	**TOOLS** Git · GitHub · GitLab · VPS

EXPERIENCE

Oct. 2026 – present

Founder and developer

WhaMak · Abomey-Calavi, Benin · Self-employed · Remote

- Designed and shipped WhaMak: workspaces, shared inbox, AI auto-replies, broadcasts and subscriptions.
- VPS hosting (Laravel and Node.js), WhatsApp Business API, transactional emails and CFA billing.

Jul. 2026 – present

Full-stack developer

O'cabs · Green Hope Initiative · Abidjan, Côte d'Ivoire · Remote

- Passenger and driver Flutter apps, Laravel API and admin, live on ocabs.ci.
- Rides, deliveries, and O'cabs Green for electric vehicles, with per-km pricing.

Apr. 2025 – present

Head of development

Mille Cervo Corporation · Abidjan, Côte d'Ivoire · Remote

- Development and production support for web and mobile platforms.

Jun. 2024 – Feb. 2025

Mobile and web developer

Agropaire · Brussels, Belgium · Remote

- Agronomic marketplace: website, vendor app and delivery driver app.
- Built with Node.js, Flutter and Vue.js.

Jan. 2023 – Apr. 2024

Development team lead

Wappii · Abidjan, Côte d'Ivoire · Remote

- E-commerce, food, ride-hailing, delivery and wallet platform, with referral features.
- Laravel, Firebase and Cloud Functions backend. Dev coordination.

Aug. 2022 – Dec. 2022

Mobile developer

Centre Eros · Cotonou, Benin

- Mobile appointment app for a psychology practice.

Jan. 2022 – Jul. 2022

Mobile and web developer

G4 Academy · Cotonou, Benin

- Education platform MVP: Flutter app, Next.js site and admin.

PROJECTS

Enfami Soccer · Canada · Next.js and Node.js · enfami-soccer.com
Online store delivered and hosted: payments, delivery, geolocation, messaging and admin, in French and English.

Ruche CI · Côte d'Ivoire · Flutter and Laravel
Hotel booking in production: website, mobile app, back-office and venue space.

Aidomiz · aidomiz.com · Next.js
On-demand services: catalog, service requests and provider signup.

ARAM Afrique · Côte d'Ivoire · Remote · present
Maintenance and upgrades of the internal software.

Atelox Solutions · atelox.com
Independent work before WhaMak.

Biodigester telemetry · Flutter
Telemetry app for an automatic temperature control system integrated into a biodigester: temperature, pressure, leak detection and heater status. Tests at Biogaz Benin, from February to July 2026.

EDUCATION
