JOSÉ ADJOVI

Full-stack web and mobile engineer / developer

Abomey-Calavi, Benin · Remote · +229 01 53 22 53 24 · joseadjovi67@gmail.com

PROFILE

Full-stack web and mobile developer. I design Flutter applications, Next.js interfaces, and Laravel or Node.js APIs, through to production. I work remotely with companies in Benin, Côte d'Ivoire, Belgium, Canada and France.

MOBILE Flutter · Android	**SOFTWARE** MATLAB/Simulink · Android Studio · VS Code · Arduino
WEB Next.js · React · Vue.js	**TOOLS** Git · GitHub · GitLab · VPS

EXPERIENCE

Oct. 2026 present

Founder and developer

WhaMak · Abomey-Calavi, Benin · Self-employed · Remote

- Designed and shipped WhaMak: workspaces, a shared inbox, built-in AI replies, broadcasts and subscriptions.
- Hosted on a VPS (Laravel and Node.js), WhatsApp Business API, transactional email and billing in CFA francs.

Jul. 2026 present

Full-stack developer

O'cabs · Green Hope Initiative · Abidjan, Côte d'Ivoire · Remote

- Passenger and driver apps in Flutter, Laravel API and admin, live on ocabs.ci.
- Rides, deliveries, and O'cabs Green for electric vehicles, with per-kilometre pricing.

Apr. 2025 present

Head of development

Mille Cervo Corporation · Abidjan, Côte d'Ivoire · Remote

- Development and production follow-up of the web and mobile platforms.

Jun. 2024 Feb. 2025

Mobile and web developer

Agropaire · Brussels, Belgium · Remote

- Marketplace for agronomic products: website, seller app and courier app.
- Built with Node.js, Flutter and Vue.js.

Jan. 2023 Apr. 2024

Development team lead

Wappii · Abidjan, Côte d'Ivoire · Remote

- E-commerce, food, ride-hailing, delivery and wallet platform, with a referral programme.
- Laravel backend, Firebase and Cloud Functions. Coordinated the development work.

Aug. 2022
Dec. 2022

Mobile developer

Centre Eros · Cotonou, Benin

- Mobile appointment app for a psychology practice.

Jan. 2022
Jul. 2022

Mobile and web developer

G4 Académie · Cotonou, Benin

- MVP of an education platform: Flutter app, Next.js site and admin.

PROJECTS

Enfami Soccer · Canada · Next.js and Node.js · enfami-soccer.com
Online store delivered and hosted: payments, delivery, geolocation, messaging and admin, in French and in English.

Ruche CI · Côte d'Ivoire · Flutter and Laravel
Hotel booking in production: website, mobile app, back office and a space for properties.

Aidomiz · aidomiz.com · Next.js
On-demand services: catalogue, service requests and provider sign-up.

ARAM Afrique · Côte d'Ivoire · Remote · ongoing
Maintenance and changes to the internal software.

Atelox Solutions · atelox.com
Independent practice before WhaMak.

Biodigester telemetry · Flutter
Telemetry app for an automatic temperature-control system built into a biodigester: temperatures, pressure, leak detection and heater status. Trials at Biogaz Bénin, from February to July 2026.
